

Drainage, Erosion and Sediment Control (DESC) Permit Waiver

This Drainage Erosion and Sediment Control Permit Waiver is intended to comply with the current requirements of the Ohio Environmental Protection Agency's Municipal Separate Storm Sewer System (MS4) permit and General Construction Permit requirements.

I, _____ the owner of a piece of property
(Printed Name)

located at _____ in Liberty Township, Fairfield County, Ohio, and also
(Address)

known as parcel # _____, understand this waiver is contingent on submitting the following:

-Submit a site plan, to scale, from the Fairfield Department of Health identifying the house, leach field and well.

-Submit a site plan, to scale, with additional or other projects to be built at the same time including the driveway, ponds, pools and auxiliary structures.

NOTE: Agricultural fields under tillage being converted to new uses will be reviewed prior to construction for excessive erosion and residue requirements related to the current standards of the United States Department of Agriculture, Natural Resources Conservation Service. Areas that are to be left exposed shall be stabilized within 14 days as per the Ohio EPA General Construction Permit requirements.

By signing below, I understand that this waiver can be revoked if it is found that any construction activities are disturbing one or more acres of total land, or disturbs less than one acre of land but is part of a larger common plan of development or sale that will ultimately disturb one or more acres of land, and will be subject to the Liberty Township Drainage Erosion Sediment Control permit requirements to obtain a permit and the owner is also subject to current Ohio Environmental Protection Agency's General Construction Permit requirements.
