

# Paint

- Use leftovers to paint closets, garage, doghouse, etc. Donate to parks, day care, churches, theater groups etc. Store paint properly for future use. Seal lids and keep labels readable. **If disposal is necessary:** Remove lids if no more than half full. Set out in a well ventilated area away from children and pets. Add kitty litter, sawdust or sand to speed drying process. After paint is dried, it can be put out with the household trash.
